

# Instructions for Reviewers

---

Thank you for accepting the invitation to review a manuscript submitted for publication in the journal Metalurgija. Your contribution is essential to ensuring the quality and scientific relevance of the papers we publish.

Please pay attention to the following when conducting your review:

## Review Form Overview

The review form contains clearly structured questions to guide your assessment. The questions are divided into several sections: content, methodology, presentation of results, ethical issues, language quality, and overall evaluation of the manuscript.

## Comments for Authors and Editors

- Please enter comments intended for the authors in the designated field on the form or attach them as a separate PDF or DOCX document.
- If you have comments intended for the editorial team only (e.g., ethical concerns, conflict of interest), please include them in the “Comments for editors” section.

## Ethics and Confidentiality

- The review process is double-blind. Please do not disclose the identity of the authors or your own identity.
- The content of the manuscript and your comments are confidential and must not be shared with third parties.
- If you suspect plagiarism, data manipulation, conflicts of interest, or other unethical practices, please clearly indicate this in your comments.

## Deadline for Submission

**Please return the completed review form and any additional comments within 14 days of receiving the manuscript.**

## Recommendation

At the end of the review form, please select one of the following options:

Accept / Accept with minor revisions / Accept with major revisions / Reject.

We kindly ask you to support your recommendation with appropriate comments.

For any additional questions or clarifications, please contact us at:

**biserka.runje@fsb.unizg.hr**

Thank you once again for your time and contribution. **As a token of appreciation, reviewers will receive a voucher in the amount of 60 EUR after submitting a completed review.**
